About Alumis

Alumis is a late-stage biopharmaceutical company developing next-generation targeted therapies with the potential to significantly improve patient health and outcomes across a range of immune-mediated diseases. Leveraging its proprietary data analytics platform and precision approach, Alumis is developing a pipeline of oral tyrosine kinase 2 inhibitors, consisting of envudeucitinib, formerly known as ESK-001, for the treatment of systemic immune-mediated disorders, such as moderate-to-severe plaque psoriasis and systemic lupus erythematosus, and A-005, its central nervous system penetrant TYK2 inhibitor, with initial development focused on Parkinson's disease and additional neuroinflammatory, neurodegenerative and peripheral immune-mediated disease indications under evaluation.
